

Allweiler Anniversary Editions

(Radolfzell/Germany) Allweiler AG, a Colfax business unit, has been manufacturing pumps in Germany for 150 years, making it the country's oldest pump manufacturer. In celebration of this milestone, Allweiler is offering its customers four exclusive anniversary editions: a leakage monitoring system for screw pumps, dry-running protection for progressing cavity pumps, complete replacement pumps with motors, and free on-site pump inspections. Allweiler is discounting all anniversary editions between 15 and 50 percent. These offers will run until the end of December, 2010. Additional information is available at www.allweiler.com.

"This is our way of thanking our customers for decades of loyalty. The four anniversary editions have been selected so every pump operator can find one that is right for his situation," says Stefan Kleinmann, Vice-President of the Industry business segment and member of the Allweiler AG management board. All four offers are available now until the end of the year. They target exclusively operators of Allweiler pumps, i.e. end users.

The "Allseal" anniversary editions include screw pumps of the "SNS" and "ALLFUEL" series, each with the new "Allseal" intelligent leakage detection and collection system. Pumps equipped with Allseal satisfy even the most stringent environmental and safety regulations while saving the operator money with higher operational reliability. The Allseal anniversary discount is 50 percent.

A 50-percent discount will also be applied to dry-running protection when operators order a progressing cavity pump. The new compact version with a control unit integrated into the temperature sensor's connection head constantly monitors the temperature of the stator and switches off the pump before the stator becomes damaged.

Customers who replace an Allweiler pump with a new unit will receive the new pump/motor combination at the anniversary discount of 15 percent. This special offer applies to all Allweiler pumps.

Finally, every pump operator in Germany can take advantage of the free "anniversary inspection" offer for Allweiler pumps, whereby Allweiler technicians survey and analyze the pumps in service. The pump check focuses on ensuring optimal usage of the pumps and uncovering opportunities to save money. This includes the reduction of energy costs

Pressemitteilung / Press Release

September 1, 2010 - Page 2

as well as expenses for spare parts and maintenance. According to Arne Forslund, CEO and executive board member at Allweiler AG: "Every Allweiler solution is designed for safety and reliability while delivering a high level of efficiency. The end result is a low total cost of ownership. The four anniversary editions give our customers cutting edge technology coupled with decades of know-how in this field."

Founded in 1860, **Allweiler AG** is the oldest German pump manufacturer and the European market and technology leader for centrifugal, propeller, screw, progressing-cavity, cogwheel, rotary lobe, macerators, and peristaltic pumps. Allweiler AG owns a foundry and produces its own stators. It manufactures ready-to-use fuel and lube-oil skids and rinsing-water facilities. Allweiler AG has its main German headquarters in Radolfzell on Lake Constance as well as a major production site in Bottrop, Germany. Allweiler AG has been part of Colfax Corporation since 1998.

About Colfax Corporation

Colfax Corporation is a global leader in critical fluid-handling products and technologies. Through its global operating subsidiaries, Colfax manufactures positive displacement industrial pumps and valves used in oil & gas, power generation, commercial marine, defense and general industrial markets. Colfax's operating subsidiaries supply products under the well known brands Allweiler, Fairmount Automation, Houttuin, Imo, LSC, Portland Valve, Tushaco, Warren and Zenith. Colfax is traded on the NYSE under the ticker "CFX." Additional information about Colfax is available at www.colfaxcorp.com.

Cautionary Note Concerning Forward-Looking Statements

This press release may contain forward-looking statements, including forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, but are not limited to, statements concerning Colfax's plans, objectives, expectations and intentions and other statements that are not historical or current facts. Forward-looking statements are based on Colfax's current expectations and involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such forward-looking statements. Factors that could cause Colfax's results to differ materially from current expectations include, but are not limited to factors detailed in Colfax's reports filed with the U.S. Securities and Exchange Commission as well as its Annual Report on Form 10-K under the caption "Risk Factors". In addition, these statements are based on a number of assumptions that are subject to change. This press release speaks only as of this date. Colfax disclaims any duty to update the information herein. The term "Colfax" in reference to the activities described in this press release may mean one or more of Colfax's global operating subsidiaries and/or their internal business divisions and does not necessarily indicate activities engaged in by Colfax Corporation.
